

CLASSIFICATION OF THE AFROTROPICAL BUTTERFLIES TO GENERIC LEVEL

Updated from Zhang *et al.*, 2 October 2023. The taxonomic report of the international Lepidoptera survey. Volume **11** no. 3.

The Superfamily **PAPILIONOIDEA** (Butterflies) has a total of about 19 000 species in about 1 820 genera. In the Afrotropical Region there are 4 595 species (4 April 2024) (about 24% of the world total) in 336 genera (about 19% of the world total).

FAMILY PAPILIONIDAE Latreille, [1802]. [104 species in 3 genera]

This family is cosmopolitan, with globally about 570 species in 32 genera.

Subfamily Papilioninae Latreille, [1802]. [104 species in 3 genera]

Tribe Leptocircini Kirby, 1896. [41 species]
Afrotropical genus: *Graphium* (41 species)

Tribe Papilionini Latreille, [1802]. [62 species]
Afrotropical genus: *Papilio* (62 species)

Tribe Troidini Talbot, 1939. [1 species]

Subtribe Troidina Talbot, 1939. [1 species]
Afrotropical genus: *Pharmacophagus* (1 species)

FAMILY HESPERIIDAE Latreille, 1809. [638 species in 86 genera]

This family is cosmopolitan, with about 4 150 species in 570 genera. There are 638 species in 86 genera in the Afrotropical Region.

Subfamily Coeliadinae Evans, 1937. [21 species in 2 genera]
Afrotropical genera: *Coeliades* (20 species), *Tekliades* (1 species).

Subfamily Katreinae Grishin, 2019. [5 species in 2 genera]
Afrotropical genera: *Katreus* (1 species), *Ortholexis* (4 species).

Subfamily Tagiadinae Mabille, 1878. [191 species in 15 genera]

Tribe Celaenorrhini Swinhoe, 1912. [136 species in 9 genera]
Afrotropical genera: *Celaenorrhinus* (20 species), *Kobelana* (2 species), *Scopulifera* (7 species), *Bettonula* (1 species), *Apallaga* (71 species), *Eretis* (12 species), *Sarangesa* (19 species), *Sape* (2 species), *Alenia* (2 species).

Tribe Tagiadini Mabille, 1878. [55 species in 6 genera]
Afrotropical genera: *Eagris* (10 species), *Procampta* (2 species), *Calleagris* (4 species), *Triskelionia* (2 species), *Tagiades* (3 species), *Abantis* (34 species).

Subfamily Pyrginae Burmeister, 1878. [23 species in 5 genera]

Tribe Carcharodini Verity, 1940. [23 species in 5 genera]

Subtribe Carcharodina Verity, 1940. [23 species in 5 genera]

Afrotropical genera: *Gomalia* (1 species), *Carcharodus* (1 species), *Spialia* (5 species); *Agyllia* (3 species); *Ernsta* (13 species).

Subfamily Malazinae Lees & Grishin, 2020. [3 species in 1 genus]

Afrotropical genus: *Malaza* (3 species)

Subfamily Heteropterinae Aurivillius, [1925]. [27 species in 3 genera].

Tribe Heteropterini Aurivillius, 1925. [27 species in 3 genera]

Afrotropical genera: *Metisella* (15 species), *Hovala* (5 species), *Willema* (7 species)

Subfamily Hesperinae Latreille, 1809. [368 species in 58 genera]

Tribe Aeromachini Tutt, 1906. [7 species in 3 genera]

Afrotropical genus: *Ampittia* (3 species), *Lepella* (1 species), *Prosopalpus* (3 species).

Tribe Ceratrichiini Grishin, 2019. [28 species in 5 genera]

Afrotropical genera: *Ceratrichia* (13 species), *Argemma* (5 species), *Meza* (1 species), *Herila* (1 species), *Pardaleodes* (8 species).

Tribe Astictopterini Swinhoe, 1912. [289 species in 41 genera]

Subtribe Astictopterina Grishin, 2023. [121 species in 20 genera]

Artitropa (10 species), *Chondrolepis* (9 species), *Dotta* (3 species), *Flandria* (3 species), *Fulda* (8 species), *Galerga* (17 species), *Gamia* (3 species), *Isoteinon* (5 species), *Kedestes* (11 species), *Leona* (7 species), *Lennia* (4 species), *Lissia* (2 species), *Moltana* (1 species), *Monza* (3 species), *Nervia* (11 species), *Ploetzia* (1 species), *Pteroteinon* (10 species), *Trida* (2 species), *Tsitana* (5 species), *Zophopetes* (6 species).

Subtribe Cupithina Grishin, 2023. [168 species in 21 genera]

Afrotropical genera: *Acada* (2 species), *Acleros* (17 species), *Andronymus* (14 species), *Caenides* (11 species), *Fresna* (10 species), *Gorgyra* (24 species), *Gyrogra* (1 species), *Hollandus* (1 species), *Hypoleucis* (3 species), *Melphina* (6 species), *Melphinyet* (5 species), *Noctulana* (1 species), *Osmodes* (14 species), *Osphantes* (1 species), *Paronymus* (15 species), *Parosmodes* (3 species), *Platylesches* (23 species), *Rhabdomantis* (2 species), *Semalea* (9 species), *Teniorhinus* (4 species), *Xanthonymus* (2 species).

Tribe Gretnini Grishin, 2019. [10 species in 2 genera]

Afrotropical genera: *Balenga* (1 species), *Gretna* (9 species).

Tribe Erionotini Distant, 1886. [1 species in 1 genus]

Afrotropical genus: *Erionota* (1 species).

Tribe Baorini Doherty, 1886. [33 species in 6 genera]

Afrotropical genera: *Borbo* (10 species), *Brusa* (2 species), *Gegenes* (14 species), *Parnara* (2 species), *Pelopidas* (2 species), *Zenonia* (3 species).

FAMILY PIERIDAE Swainson, 1820. [242 species in 22 genera]

This family is cosmopolitan, with about 1 164 species in 91 genera. There are 242 species in 22

genera in the Afrotropical Region.

Subfamily Coliadinae Swainson, 1821. [15 species in 3 genera]

Tribe Coliadini Swainson, 1821.

Subtribe Coliadina Swainson, 1821.

Afrotropical genera: *Colias* (4 species), *Catopsilia* (3 species)

Tribe Euremini Grote, 1898.

Subtribe Euremina Grote, 1898.

Afrotropical genera: *Terias* (8 species)

Subfamily Pseudopontiinae Reuter, 1896. [5 species in 1 genus]

Afrotropical genus: *Pseudopontia* (5 species)

Subfamily Pierinae Swainson, 1820. [222 species in 18 genera]

Tribe Teracolini Reuter, 1896. [51 species in 6 genera]

Afrotropical genera: *Colotis* (41 species), *Eronia* (2 species), *Teracolus* (4 species), *Pinacopteryx* (2 species), *Gideona* (1 species), *Afrodryas* (1 species)

Tribe Calopierini Grishin, 2021. [1 species in 1 genus]

Afrotropical genus: *Calopieris* (1 species)

Tribe Leptosiaini Braby, 2014. [7 species in 1 genus]

Afrotropical genus: *Leptosia* (7 species)

Tribe Nepheroniini Braby, 2014. [5 species in 1 genus]

Afrotropical genus: *Nepheronia* (5 species)

Tribe Anthocharidini Scudder, 1889. [3 species in 2 genera]

Afrotropical genera: *Euchloe* (2 species), *Elphinstonia* (1 species)

Tribe Pierini Swainson, 1820. [155 species in 7 genera]

Subtribe Pierina Swainson, 1820. [7 species in 2 genera]

Afrotropical genera: *Pieris* (2 species), *Pontia* (5 species)

Subtribe Appiagina Kuzsenov, 1921. [6 species in 1 genus]

Afrotropical genus: *Appias* (6 species)

Subtribe Aporiina Chapman, 1895. [142 species in 4 genera]

Afrotropical genera: *Belenois* (26 species), *Dixeia* (10 species), *Mylothris* (105 species), *Pseudanaphaeis* (1 species)

FAMILY RIODINIDAE Grote, 1895. [17 species in 2 genera]

This family is cosmopolitan, with about 1 532 species in 146 genera. There are only 17 species in 2 genera in the Afrotropical Region.

Subfamily Nemeobiinae Bates, [1868]. [17 species in 2 genera]

Tribe Abisarini Stichel, 1928. [17 species in 2 genera]

Subtribe Abisarina Stichel, 1928. [17 species]
Afrotropical genera: *Afriodinia* (13 species), *Saribia* (4 species)

FAMILY LYCAENIDAE Leach, 1815. [1933 species in 124 genera]

This family is cosmopolitan, with about 5 200 species worldwide in 416 genera.

Subfamily Miletinae Reuter, 1896. [71 species in 4 genera]

Tribe Lachnocnemini Clench, 1955. [64 species in 2 genera]
Afrotropical genera: *Lachnocnema* (36 species), *Thestor* (28 species)

Tribe Miletini Reuter, 1896. [4 species in 1 genus]

Subtribe Megalopalpina Grishin, 2023.
Afrotropical genus *Megalopalpus* (4 species)

Tribe Spalgini Toxopeus, 1929. [3 species in 1 genus]
Afrotropical genus: *Spalgis* (3 species)

Subfamily Liphyrinae Doherty, 1889. [49 species in 2 genera]

Afrotropical genera: *Euliphyra* (6 species), *Aslauga* (43 species)

Subfamily Aphnaeinae Distant, 1884. [274 species in 15 genera]

Tribe Aphnaeini Distant, 1884. [109 species in 7 genera]

Subtribe Aloeidina Grishin, 2023. [67 species in 4 genera]
Afrotropical genera: *Aloeides* (57 species), *Argyraspodes* (1 species), *Trimenia* (5 species), *Erikssonia* (4 species)

Subtribe Phasisina Grishin, 2023. [5 species in 2 genera]
Afrotropical genera: *Phasis* (4 species), *Tylopaedia* (1 species)

Subtribe Aphnaeina Distant, 1884. [37 species in 1 genus]
Afrotropical genera: *Aphnaeus* (37 species),

Tribe Axiocersini Grishin, 2023 [22 species in 2 genera]
Afrotropical genera: *Axiocerses* (18 species), *Zeritis* (4 species)

Tribe Cigaritini Grishin, 2023. [143 species in 6 genera]

Subtribe Cigaritina Grishin, 2023. [106 species in 3 genera]
Afrotropical genera: *Cigaritis* (42 species), *Chloroselas* (15 species), *Chryсорitis* (49 species)

Subtribe Pseudaletina Grishin, 2023. [29 species in 1 genus]
Afrotropical genus: *Pseudaletis* (29 species)

Subtribe Incertae cedis Grishin, 2023. [8 species in 2 genera]
Afrotropical genera: *Crudaria* (4 species), *Lipaphnaeus* (4 species),

Subfamily Poritiinae Doherty, 1886. [727 species in 53 genera]

Tribe Liptenini Röber, 1892. [727 species in 53 genera]

Subtribe Liptenina Röber, 1892. [307 species in 24 genera]

Afrotropical genera: *Argyrocheila* (3 species), *Baliochila* (27 species), *Citrinophila* (7 species), *Cnodontes* (4 species), *Congdonia* (1 species), *Epitolina* (5 species), *Eresina* (20 species), *Eresinopsides* (2 species), *Eresiomera* (17 species), *Euthecta* (2 species), *Falcuna* (16 species), *Helna* (7 species), *Kakumia* (3 species), *Larinopoda* (6 species), *Liptena* (80 species), *Micropentila* (34 species), *Mimacraea* (20 species), *Mimeresia* (13 species), *Obania* (7 species), *Parasiomera* (4 species), *Pseuderesia* (3 species), *Teriomima* (7 species), *Tetrrarhanis* (15 species), *Toxochitona* (4 species).

Subtribe Pentilina Aurivillius, 1914. [170 species in 6 genera]

Afrotropical genera: *Alaena* (25 species), *Ornipholidotos* (62 species), *Pentila* (48 species), *Ptelina* (2 species), *Telipna* (28 species), *Torbenia* (5 species).

Subtribe Epitolina Jackson, 1962. [211 species in 17 genera]

Afrotropical genera: *Aethiopana* (1 species), *Batelusia* (1 species), *Cephetola* (69 species), *Cerautola* (15 species), *Deloneura* (7 species), *Epitola* (5 species), *Geritola* (24 species), *Hewitola* (4 species), *Hewitsonia* (15 species), *Hypophytala* (13 species), *Stempfferia* (51 species), *Neaveia* (1 species), *Neoepitola* (1 species), *Phytala* (1 species), *Powellana* (1 species), *Pseudoneaveia* (1 species), *Tumerepedes* (1 species).

Subtribe Iridanina Clench, 1965. [28 species in 2 genera]

Afrotropical genera: *Iridana* (26 species), *Teratoneura* (2 species).

Subtribe Durbaniina Clench, 1955. [4 species in 3 genera]

Afrotropical genera: *Durbania* (2 species), *Durbaniella* (1 species), *Durbaniopsis* (1 species).

Subtribe Cooksoniina Sáfián, Boyle & Pierce, 2023. [7 species in 1 genus]

Afrotropical genus: *Cooksonia* (7 species).

Subfamily Lycaeninae Leach, 1815. [3 species in 2 genera]

Tribe Lycaenini Leach, 1815. [3 species in 2 genera]

Afrotropical genera: *Lycaena* (1 species), *Lafron* (2 species)

Subfamily Theclinae Swainson, 1830. (1820) [257 species in 10 genera]

Tribe Deudorigini Doherty, 1886. [41 species in 2 genera]

Afrotropical genera: *Deudorix* (23 species), *Capys* (18 species),

Tribe Rapalini Grishin, 2023. [67 species in 3 genera]

Subtribe Philodeudorigina Grishin, 2023. [67 species in 3 genera]

Afrotropical genera: *Pilodeudorix* (50 species), *Paradeudorix* (13 species), *Hypomyrina* (4 species).

Tribe Cheritrini Swinhoe, 1910. [2 species in 1 genus]

Afrotropical genus: *Dapidodigma* (2 species)

Tribe Myrinini Doherty, 1886. [3 species in 1 genus]
Afrotropical genus: *Myrina* (3 species)

Tribe Iolaini Riley, 1958. [144 species in 3 genera]
Afrotropical genera: *Iolaus* (133 species), *Stugeta* (8 species), *Etesiolaus* (3 species)

Subfamily Polyommatinae Swainson, 1827. [552 species in 38 genera]

Tribe Polyommadini Swainson, 1827. [333 species in 27 genera]

Subtribe Polyommatina Swainson, 1827. [12 species in 5 genera]
Afrotropical genera: *Chilades* (5 species), *Freyeria* (2 species), *Luthrodes* (3 species), *Kipepeo* (1 species), *Birabiro* (1 species).

Subtribe Actizerina Stradomsky, 2016. [4 species in 1 genus]
Afrotropical genus: *Actizera* (4 species)

Subtribe Azanina Grishin, 2023. [8 species] in 1 genus]
Afrotropical genus: *Azanus* (8 species)

Subtribe Brephidiina Stradomsky, 2016. [3 species in 1 genus]
Afrotropical genera: *Brephidium* (3 species)

Subtribe Catochrysopina Stradomsky, 2016. [1 species in 1 genus]
Afrotropical genera: *Catochrysops* (1 species)

Subtribe Lampidina Stradomsky, 2016. [10 species in 2 genera]
Afrotropical genera: *Lampides* (1 species), *Cacyreus* (9 species)

Subtribe Leptotina Stradomsky, 2016. [16 species in 1 genus]
Afrotropical genera: *Leptotes* (16 species)

Subtribe Oboroniina Grishin, 2023. [197 species in 5 genera]
Afrotropical genera: *Oboronia* (7 species), *Euchrysops* (26 species), *Orachrysops* (11 species), *Lepidochrysops* (137 species), *Thermoniphys* (16 species).

Subtribe Unina Grishin, 2023. [2 species in 1 genus]
Afrotropical genus: *Pseudonacaduba* (2 species)

Subtribe Uranothaumatina Grishin, 2023. [23 species in 1 genus]
Afrotropical genus: *Uranothauma* (23 species),

Subtribe Zizeeriina Stradomsky, 2016. [1 species in 1 genus]
Afrotropical genera: *Zizeeria* (1 species)

Subtribe Zizulina Grishin, 2023. [1 species in 1 genus]
Afrotropical genus: *Zizula* (1 species)

Subtribe Incertae cedis [55 species in 6 genera]
Afrotropical genera: *Eicochrysops* (15 species), *Harpendyreus* (15 species), *Tarucus* (12 species), *Tuxentius* (11 species), *Zintha* (1 species), *Zizina* (1 species)

Tribe Hypotheclini Eliot, 1973. [2 species in 1 genus]

Subtribe Cupidopsina Grishin, 2023. [2 species in 1 genus]

Afrotropical genus: *Cupidopsis* (2 species)

Tribe Oxylini Eliot, 1973. [13 species in 2 genera]

Subtribe Oxylidina Eliot, 1973. [13 species in 2 genera]

Afrotropical genera: *Oxyrides* (7 species), *Syrmoptera* (6 species).

Tribe Hypolycaenini Swinhoe, 1910. [40 species in 3 genera]

Subtribe Hypolycaenina Swinhoe, 1910 [35 species in 2 genera]

Afrotropical genera: *Hypolycaena* (25 species), *Leptomyrina* (10 species)

Subtribe Hemiolaina Grishin, 2023. [5 species in 1 genus]

Afrotropical genus: *Hemiolaus* (5 species)

Tribe Lycaenesthini Toxopeus, 1929. [164 species in 5 genera]

Afrotropical genera: *Anthene* (72 species), *Cupidesthes* (18 species), *Neurellipes* (49 species), *Triclema* (23 species), *Monile* (2 species)

FAMILY NYMPHALIDAE Rafinesque, 1815. [1660 species in 99 genera]

This family is cosmopolitan, with about 6 160 species in 560 genera. There are 1 662 species in 99 genera in the Afrotropical Region.

Subfamily Apaturinae Boisduval, 1840. [3 species in 1 genus]

Afrotropical genus: *Apaturopsis* (3 species)

Subfamily Biblidinae Boisduval, 1833. [31 species in 6 genera]

Tribe Biblidini Boisduval, 1833. [14 species in 5 genera]

Afrotropical genera: *Byblia* (2 species), *Mesoxantha* (1 species), *Ariadne* (5 species), *Neptidopsis* (2 species), *Eurytela* (4 species)

Tribe Epicaliini Guenée, 1865. [17 species in 1 genus]

Afrotropical genus: *Sevenia* (17 species)

Subfamily Charaxinae Guenée, 1865. [193 species in 10 genera]

Tribe Pallini Rydon, 1971. [4 species in 1 genus]

Afrotropical genus: *Palla* (4 species)

Tribe Charaxini Guenée, 1865. [189 species in 9 genera]

Afrotropical genera: *Charaxes* (78 species), *Eriboea* (83 species), *Euxanthe* (6 species), *Laodice* (5 species), *Polyura* (7 species), *Setechin* (1 species), *Viridixes* (7 species), *Ydeali* (1 species), *Zingha* (1 species)

Subfamily Cyrestinae Guenée, 1865. [1 species in 1 genus]

Afrotropical genus: *Cyrestis* (1 species)

Subfamily Danainae Boisduval, 1833. [26 species in 4 genera]

Tribe Danaini Boisduval, 1833. [26 species in 4 genera]

Subtribe Euploea Moore, [1880]. [5 species in 1 genus]

Afrotropical genus: *Euploea* (5 species)

Subtribe Danaina Boisduval, 1833. [4 species in 2 genera]
Afrotropical genera: *Danaus* (2 species), *Tirumala* (2 species)

Subtribe Amaurina Le Cerf, 1922. [17 species in 1 genus]
Afrotropical genus: *Amauris* (17 species)

Subfamily Heliconiinae Swainson, 1822. [256 species in 12 genera]

Tribe Argynnini Swainson, 1833. [5 species in 3 genera]

Subtribe Argynnina Swainson, 1833. [4 species in 2 genera]
Afrotropical genera: *Issoria* (3 species), *Argynnis* (1 species)

Subtribe Incertae sedis. [1 species in 1 genus]
Afrotropical genus: *Pardopsis* (1 species)

Tribe Vagrantini Pinratana & Eliot, 1996. [5 species in 2 genera]

Subtribe Smerinina Grishin, 2023. [1 species in 1 genus]
Afrotropical genus: *Smerina* (1 species).

Subtribe Incertae sedis. [1 species in 1 genus]
Afrotropical genus: *Phalanta* (4 species)

Tribe Algiini Grishin, 2023. [2 species in 1 genus]

Subtribe Lachnapterina Grishin, 2023. [2 species in 1 genus]
Afrotropical genus: *Lachnoptera* (2 species),

Tribe Acraeini Boisduval, 1833. [245 species in 6 genera]
Afrotropical genera: *Acraea* (27 species), *Rubraea* (39 species), *Stephenia* (29 species), *Tildia* (13 species), *Bematistes* (35 species), *Telchinia* (101 species)

Subfamily Libytheinae Boisduval, 1833. [5 species in 1 genus]
Afrotropical genus: *Libythea* (5 species)

Subfamily Limenitidinae Behr, 1864. [713 species in 19 genera]

Tribe Pseudoneptini Dhungel & Wahlberg, 2018. [1 species in 1 genus]
Afrotropical genus: *Pseudoneptis* (1 species)

Tribe Cymothoini Dhungel & Wahlberg, 2018. [80 species in 3 genera]
Afrotropical genera: *Cymothoe* (78 species), *Harma* (1 species)

Subtribe Kumothalina Grishin, 2023. (1 species)
Afrotropical genus: *Kumothales* (1 species)

Tribe Adoliadini Doubleday, 1845. [525 species in 12 genera]

Subtribe Bebeariina Hemming, 1960. [502 species in 10 genera]
Afrotropical genera: *Aterica* (2 species), *Pseudargynnis* (1 species), *Cynandra* (1 species), *Euryphura* (16 species), *Euryphaedra* (1 species), *Euryphurana* (1 species), *Euphaedra* (254 species), *Euriphene* (76 species), *Bebearia* (115 species), *Euptera* (35 species).

Subtribe Eveniana Grishin, 2023. (5 species in 1 genus)
Afrotropical genus: *Evena* (5 species)

Subtribe Pseudathymina Grishin, 2023. (17 species in 1 genus)
Afrotropical genus: *Pseudathyma* (17 species)

Tribe Chalangini Morishita, 1996 [1 species in 1 genus]
Afrotropical genus: *Hamanumida* (1 species).

Tribe Pseudacraeini Dhungel & Wahlberg, 2018. [16 species in 1 genus]
Afrotropical genus: *Pseudacraea* (16 species)

Tribe Neptini Newman, 1870. [90 species in 1 genus]
Afrotropical genus: *Neptis* (90 species)

Subfamily Nymphalinae Rafinesque, 1815. [80 species in 12 genera]

Tribe Nymphalini Rafinesque, 1815. [9 species in 2 genera]
Afrotropical genera: *Antanartia* (3 species), *Vanessa* (6 species)

Tribe Kallimini Doherty, 1886. [2 species in 2 genera]
Afrotropical genera: *Catacroptera* (1 species), *Mallika* (1 species)

Tribe Melitaeini Newman, 1870. [2 species in 1 genus]

Subtribe Melitaeina Newman, 1870. [2 species]
Afrotropical genus: *Melitaea* (2 species)

Tribe Junoniini Reuter, 1896. [65 species in 5 genera]
Afrotropical genera: *Junonia* (23 species), *Salamis* (4 species), *Protogoniomorpha* (4 species), *Precis* (19 species), *Hypolimnas* (15 species)

Tribe Kallimoidini Grishin, 2021. [1 species in 1 genus]
Afrotropical genus: *Kallimoides* (1 species)

Tribe Vanessulini Grishin, 2021. [1 species in 1 genus]
Afrotropical genus: *Vanessula* (1 species)

Subfamily Satyrinae Boisduval, 1833 [353 species in 33 genera]

Tribe Dirini Verity, 1953. [28 species in 6 genera]
Afrotropical genera: *Paralethe* (1 species), *Aeropetes* (1 species), *Tarsocera* (7 species), *Torynesis* (5 species), *Dira* (4 species), *Dingana* (7 species).

Tribe Melanitini Reuter, 1896. [12 species in 4 genera]
Afrotropical genera: *Gnophodes* (5 species), *Haydonia* (4 species), *Ducarmeia* (1 species), *Melanitis* (2 species)

Tribe Elymniini Herrich-Schaeffer, 1864. [1 species in 1 genus]
Afrotropical genus: *Elymnius* (1 species)

Tribe Satyrini Boisduval, 1833. [312 species in 22 genera]

Subtribe Parargina Tutt, 1896. [2 species in 1 genus]

Afrotropical genus: *Lasiommata* (2 species)

Subtribe Mycalesina Reuter, 1896. [184 species in 4 genera]

Afrotropical genera: *Bicyclus* (102 species), *Hallelesis* (2 species), *Heteropsis* (67 species), *Brakefieldia* (13 species)

Subtribe Lethina Reuter, 1896. [2 species in 1 genus]

Afrotropical genus: *Aphysoneura* (2 species)

Subtribe Satyrina Boisduval, 1833. [1 species in 1 genus]

Afrotropical genus: *Hipparchia* (1 species)

Subtribe Callerebiina Grishin, 2021. [5 species in 1 genus]

Afrotropical genus: *Physcaeneura* (5 species)

Subtribe Ypthimina Reuter, 1896. [118 species in 14 genera]

Afrotropical genera: *Ypthima* (19 species), *Ypthimomorpha* (1 species), *Mashuna* (2 species), *Mashunoides* (1 species), *Strabena* (37 species), *Neocoenyra* (15 species), *Coenyropsis* (3 species), *Coenyra* (3 species), *Neita* (7 species), *Melampias* (1 species), *Cassionympha* (4 species), *Pseudonympha* (14 species), *Paternympha* (2 species), *Stygionympha* (9 species)
